shoplifting because LOSS is a four letter word.

The act of removing an item from a store without purchasing it prior to removal is the crime of shoplifting.

Ways you can prevent shoplifting are:

- If you have an item you wish to hold onto, use a basket or cart and do not place it in your pocket.
- Check the bottom of baskets to ensure you have not forgotten anything at checkout.
- Know that the merchandise is not worth a criminal record.
- If you see someone who may be shoplifting, report it to an employee. It is not advised to try and stop them yourself.
- If you know it is not affordable, do not entertain the thought of stealing.
- Do not assist a friend or family member in the event they decide to shoplift.

Shoplifting is a crime that you do not want to be entangled in. Do the right thing and purchase the merchandise. If you see a possible shoplifter, report it!
