MONITORING

Communications systems are provided for the transmission of official government information only, and are subject to communications security monitoring and communications management monitoring at all times.

The use of the MCAGCC telephone system shall constitute consent to communications security and management monitoring in accordance with the DOD Directive 4640.1.

The purpose of telephone communications security monitoring is to provide a basis for analysis of determining the degree of security being afforded to transmission and to:

1. Advise commanders on actual or possible security compromises.
2. Improve the security protection of telephone communications against hostile intelligence exploitation.

ADDITIONAL INFORMATION:

ALL TELEPHONE NUMBERS ARE ASSIGNED TO THE BILLET, NOT THE INDIVIDUAL. Relocation of telephone numbers will **ONLY be performed when the billet is relocating, **NOT** the individual.**

INSTRUCTIONS AND INFORMATION

HOW TO PLACE LOCAL OFFICIAL CALLS

1. **CALLING AREA:** To call off base, dial 99, 1-760 and then dial the number listed in the Frontier Telephone Directory. **Personal calls outside the local calling area (Base Housing, 29 Palms, & Joshua Tree) must have alternate billing.**

TELEPHONE ETIQUETTE

TELEPHONE ETIQUETTE IS IMPORTANT. The impression of a business office often is formed by a caller from the courtesy and efficiency of the person on the other end of the line.

To help make that positive impression, here are thirteen tips on receiving a telephone call.

1. Answer as promptly as possible and answer each call as if it was the first call you received that day.
2. Identify yourself when answering.
3. Speak distinctly and pleasantly.
4. Avoid making abrupt, trite or misleading statements.
5. When a call comes to your telephone concerning some matter which is outside your department, let the caller know at once that his call should be handled by someone else. Do not let the caller tell their story unnecessarily. Nothing is more irritating to a caller than having to repeat a message to several people.
6. Give the caller a report and make an offer to help. (e.g. "He stepped out of the office, may I ask him to call you?")
7. When necessary, give the caller an accurate phone number or extension where the person may be reached.
8. Volunteer your own assistance. "May I help you?", or "Could anyone else help you?" often leaves a good impression.
9. Request identity of a caller only when necessary and do so in a tactful manner.
10. Explain off-the-line delays. Be sure to let the caller know you are going to have to put the phone down and why.
11. Take messages willingly.
12. Transfer the call elsewhere only when the correct number is known. No one likes the "run around".
13. Say good-bye pleasantly and hang up gently.
