## **UNOFFICIAL/PERSONAL USE OF TELEPHONES:**

Personal calls cannot result in a charge to the government even if the employee intends to reimburse the government. Calls into MCAGCC housing or local community do not incur a toll cost. **Calls to cell phones, regardless of the called party's physical location, CAN incur a long distance toll charge.** Personnel are authorized to use government telephones to place local calls provided they meet the following criteria:

- 1) Does not adversely affect the mission of the employee's organization or the performance of the employee's official duties.
- 2) Are of a reasonable duration and frequency.
- 3) Reasonably cannot be made at another time. Examples of permissible types of local personal calls include: Checking on an immediate family member, making or canceling personal appointments, checking on the status of home or automobile repairs, notifying family of overtime requirements or other changes in schedules.

Note: Supervisors of government employees, both military and civilian are responsible for ensuring that authorized use does not become abused. Placing personal long distance toll calls from a government extension without alternate billing is prohibited, and in violation of federal law.

The use of the MCAGCC telephone system shall constitute consent to communications security and management monitoring in accordance with the DOD Directive 4640.1.

1. Advise commanders on actual or possible security compromises.

# INSTRUCTIONS AND INFORMATION

## HOW TO PLACE LOCAL OFFICIAL CALLS

1. **CALLING AREA:** To call off base, dial 99, 1-760 and then dial the number listed in the Frontier Telephone Directory. **Personal calls outside the local calling area (Base Housing, 29 Palms, & Joshua Tree) must have alternate billing.**

### TELEPHONE ETIQUETTE

**TELEPHONE ETIQUETTE IS IMPORTANT.** The impression of a business office often is formed by a caller from the courtesy and efficiency of the person on the other end of the line.

To help make that positive impression, here are thirteen tips on receiving a telephone call.

1. Answer as promptly as possible and answer each call as if it was the first call you received that day.
2. Identify yourself when answering.
3. Speak distinctly and pleasantly.
4. Avoid making abrupt, trite or misleading statements.
5. When a call comes to your telephone concerning some matter which is outside your department, let the caller know at once that his call should be handled by someone else. Do not let the caller tell their story unnecessarily. Nothing is more irritating to a caller than having to repeat a message to several people.
6. Give the caller a report and make an offer to help. (e.g. "He stepped out of the office, may I ask him to call you?")
7. When necessary, give the caller an accurate phone number or extension where the person may be reached.
8. Volunteer your own assistance. "May I help you?", or "Could anyone else help you?" often leaves a good impression.
9. Request identity of a caller only when necessary and do so in a tactful manner.
10. Explain off-the-line delays. Be sure to let the caller know you are going to have to put the phone down and why.
11. Take messages willingly.
12. Transfer the call elsewhere only when the correct number is known. No one likes the "run around".
13. Say good-bye pleasantly and hang up gently.
