1. Situation. Long-range budgeting for replenishment, replacement, and acquisition of general equipment is done at Headquarters U.S. Marine Corps (HQMC) and executed with centrally managed Operations and Maintenance Marine Corps (OMMC) and Procurement Marine Corps funds. HQMC Program Evaluation Board submits budget requests to Congress for selected general (formerly garrison) equipment programs based on requirements submitted to HQMC by installation commanders. The references assign roles and responsibilities, and stress the importance of detailed planning and life-cycle management of property, in order to minimize harmful effects to the supporting establishment. Harmful effects include reduced readiness, limited capabilities, lower levels of service, and constrained local OMMC funds.

2. Mission. To publish instructions for submitting all requirements for equipment acquisition, replenishment, replacement, refurbishment, and refurbishing programs for fiscal years (FY) 2021 through 2027, electronically to the Consolidated Material Support Center (CMSC) no later than (NLT) 31 May 2020.

3. Execution

(1) Commander's Intent. In accordance with the references, the vision and strategic plans of Marine Air Ground Task Force Training Command, Marine Corps Air Ground Combat Center, and Marine Corps Mountain Warfare Training Center (MCMWTC), develop a complete and comprehensive prioritized operating plan to sustain installation readiness, joint capability areas, and Common Output Levels of Service (COLS) in the years required.
