Security is a means, not an end; our primary goal is for the safeguarding of classified information to become a natural element of every task and not an additional burden. In addition, within the personnel security program, we must ensure all MAGTFTC, MCAGCC personnel are properly vetted in accordance with reference (h) to include active duty, appropriated and nonappropriated employees and contractors. The interest and involvement of all MAGTFTC, MCAGCC personnel, particularly supervisors, must be a priority in each organization.

(2) Concept of Operations

(a) Prevent unauthorized persons from gaining access to classified material.

DISTRIBUTION STATEMENT B: Distribution authorized only for MAGTFTC, MCAGCC directorates, special staff sections, and operational forces.

JUL 22 2019

(b) Provide security for classified information consistent with those requirements established by higher authority and sound management principles.

(c) Develop security awareness through education and familiarize personnel with the requirements for safeguarding classified information.

(d) Preserve, as supervisors and all individuals who work with classified information, a security balance and common sense approach toward the subject. As rules, which govern the security of classified information, do not guarantee protection, and they do not attempt to meet every conceivable situation.

b. Subordinate Element Missions

(1) Commanding Officers, Assistants Chief of Staff, Special Staff Officers, Officers-in-Charge and Division Directors. Ensure compliance and implementation of the IPSP within their commands.

(2) Each person, civilian, contractor, or anyone working for the Navy or Marine Corps, is individually responsible for compliance with all aspects of this program.

(3) Detailed security information, guidance, and responsibilities are contained in MAGTFTC, MCAGCC Security Standard Operating Procedures (See Administration and Logistics to access the link).
