

Marine Corps Air Ground Combat Center Crime Prevention Newsletter

Crime Prevention is an active approach that combines public awareness & prevention measures to reduce crime

February 2024 brings focus on **Pet Security/Safety**.

You love your pets more than you ever thought you could. Perhaps, you love your pet more than people. Due to this love, ensure your pet is safe & secure by following standards & keeping these practices:

ID Them – In case of accidents or for general precautions, tag your pet with an ID on their collars & have contact information on them.

Chip Them – In case ID tags are removed, a microchip helps go the extra mile for identification & will help return pets home.

Lock Them – If you have fenced yards & gates... secure them, or use any means to keep them home, to include locking doors and/or windows.

Leash Them – When taking your pets out, use a leash, to include chains & other control devices. This is for their safety & everyone else.

Consider all the other tips for pet safety, to include food safety, wellness, weather conditions, etc. Remember, pets are just like children requiring love, protection & good homes. Do not find yourself committing animal neglect.

Keep pets safe & care for them, always!
