

Marine Corps Air Ground Combat Center Crime Prevention Newsletter

Crime Prevention is an active approach that combines public awareness & prevention measures to reduce crime

June 2024 brings focus on **Social Media Threats**.

Social media has evolved into a major information sharing & communication method. However, accompanied with the benefits, there are risks to safety & security. Here are ways to avoid social media crime & victimization:

Phishing & Scams

Avoid by posting minimal personal information on your profiles & not selecting suspicious links/attachments.

Account Takeover

Avoid by using multi-factor authentication, setting unique passwords & monitoring activity.

Social Media Threats

Avoid by not posting offensive dialogue leading to outrageous conversations & causing harmful actions due to language.

These are only a few social media issues to remember in the collective platforms. Understanding the threats & being proactive with safeguards is the key to cybersecurity. Be watchful for malicious actors online & remember cybersecurity is a shared responsibility & vigilance is essential!
