

Helmet

Required to wear while riding! It should fit snugly, be breathable, and be buckled.

RIDE RIGHT

Essentials

Whatever skill level you're at, it's important to stay safe and follow Combat Center regulations by wearing a helmet. Additionally, to help avoid injuries, you'll want to use the other equipment.

Elbow Pads

Optional to wear. Properly fitted elbow pads help prevent any unnecessary scrapes or bruises.

Knee Pads

Optional to wear. These keep you protected in case of any nasty falls; after all, tricks don't always go right on the first attempt!

Adults and children must ensure proper Personal Protective Equipment (PPE) is worn when riding scooters and any other recreational items (bicycles, skateboards, roller blades, etc.).

Parents, you are responsible for your children, so please make sure they wear PPE or you are at risk for repercussions.
