Sec. 36, N¹/₂ and SE¹/₄.

The areas described aggregate 3,745 acres, more or less in San Bernardino County.

The purpose of the proposed withdrawal is to protect and preserved the status quo of the lands pending action on an application for withdrawal for military purposes under the Engle Act. Currently, the lands are not being used for military training purposes.

The use of a right-of-way or cooperative agreement would not prohibit new mineral location.

The proposed withdrawal would not require water.

There are no suitable alternative sites. The USMC analyzed lands elsewhere in the United States and concluded that the lands located adjacent to MCAGCC were the best site for the proposed training.

On or before December 13, 2010, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the BLM, Barstow Field Office Manager at the address indicated above.

Comments, including names and street addresses of respondents, will be available for public review at the BLM Barstow Field Office at the address above during regular business hours. Individual respondents may request confidentiality. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold from public review your personal identifying information, we cannot guarantee that we will be able to do so.

Notice is hereby given that a public meeting will be afforded in connection with the proposed withdrawal. A notice of the time and place of the public meeting will be published in the **Federal Register** and a local newspaper at least 30 days before the scheduled date of the meeting.

This withdrawal proposal will be processed in accordance with the regulations set forth in 43 CFR Part 2300.

For a period of 2 years from the date of publication of this notice in the **Federal Register**, the lands will be segregated from settlement, sale, location and entry under the public land laws, including the United States mining laws, and from the operation of the mineral and geothermal leasing laws and the Materials Act of 1947 unless the application is denied or canceled or the

withdrawal is approved prior to that date.

Licenses, permits, cooperative agreement, or discretionary land use authorizations of a temporary nature which will not significantly impact the values to be protected by the withdrawal may be allowed with the approval of the authorized officer of BLM during the segregative period.

Authority: 43 CFR 2310.3–1(a), (b)(1) and (2).
