PRESS RELEASE #17-003

January 27, 2017

FOR IMMEDIATE RELEASE

JOHNSON VALLEY APP UPDATE

MARINE CORPS AIR GROUND COMBAT CENTER TWENTYNINE PALMS , Calif. –

The Discover Johnson Valley app has been updated to offer expanded capabilities. This full-featured version for Android and iOS devices includes an update to the map that now depicts the Johnson Valley Off-Highway Vehicle Recreation Area, and the addition of information on Special Use Airspace used to support training at Marine Corps Air Ground Combat Center.

With the update, users will enjoy the following tools:

- Land Closure Alerts
- Enhanced Map
- Safety Information
- Airspace Information
- Refreshed Interface

- Information Sharing Platform

The app is designed to communicate key information and alerts about the Johnson Valley Shared Use Area. Its primary purpose is to notify users when the Shared Use Area is open or closed for public use and communicate when a user has crossed into a restricted area. Other functions include providing conservation and safety information, current special use airspace information, and contact information for questions.

To learn more, visit <http://www.29palms.marines.mil/Staff/G5-Government-and-External-Affairs/Johnson-Valley/> or email SMBPLMSJOHNSONVALLEY@usmc.mil.
