

**Proposed Land Acquisition/Airspace Establishment in Support of Large-Scale MAGTF Live Fire and Maneuver Training**

**Project Update Notice Number 10—December 2011**

**Marine Air Ground Task Force Training Command  
Marine Corps Air Ground Combat Center  
Twentynine Palms, CA**

*The Project Update Notices offer a focused way to provide easily accessible, wide-spread distribution of new Project information. They augment the regular updating of key Project public documents carried on MCAGCC's Land Acquisition Study webpage. Please see these other Project documents for an overview and key background information.*

- **The schedule for preparation of the Final Environmental Impact Statement (FEIS) has been extended. The FEIS is studying alternatives for the Marine Corps to acquire sufficient range and airspace to meet training requirements for sustained, combined-arms, live-fire and maneuver Marine Expeditionary Brigade Training.**
  - More time is being taken to complete the related studies and documentation on Off Highway Vehicle Recreation, noise, protected species, and other natural resources and to respond to public comments on the Draft EIS than was originally scheduled.
  - Taking this extra time ensures that the Marine Corps can complete a thorough analysis with the best available information of the potential environmental impacts associated with the six alternatives under study.
  - The new schedule shows a Final EIS being made available for public review in April 2012.
  - The new schedule shows the Department of the Navy's Record of Decision (ROD) now being released in July 2012.
