**SOUND ADVISORY #23-006**

Dec 13, 2023

**FOR IMMEDIATE RELEASE**

**MARINE CORPS AIR GROUND COMBAT CENTER TWENTYNINE PALMS, Calif.-** There will be an increase of military training noise in the Morongo Basin due to Marines participating in a series of training events known as Exercise Steel Knight at the Combat Center. This training will continue until the evening of Friday, Dec. 15th.

Steel Knight is a three-phase exercise designed to train I Marine Expeditionary Force in the planning, deployment and command and control of a joint force against a peer or near-peer adversary combat force and enhance existing live-fire and maneuver capabilities of the MAGTF.

Noise from training may be amplified when the cloud cover is low. Depending on atmospheric conditions, sounds from the training area may be amplified throughout the local area.

For sound reporting or more information about operations aboard MAGTF, MCAGCC email
